Séptimo Semestre

The image shows a laptop screen with two main windows. On the left is a terminal window titled 'WordPress-1 - Terminal | Lightsail - Google Chrome'. It shows a command prompt session on a Linux instance (ip-172-26-2-104) where the user has run 'sudo apt-get install bitnami-wordpress-5.4.2-0'. The terminal output includes the Bitnami WordPress 5.4.2-0 welcome message, documentation links, and a list of frequently used commands like 'sudo /opt/bitnami/bnhelper-tool'. On the right is a GoDaddy Pro Sites dashboard. It features a 'We recommend...' section with a 'Help' button and a 'Sign up now!' link. Below this, there's a list of benefits for using GoDaddy Pro Sites, such as automated cloud backups and uptime monitoring. The dashboard also includes a 'Sign up now!' button and a 'Don't show this again' option. The bottom of the screen shows the Windows taskbar with various application icons and the system clock indicating 09:29 p.m. on 10/29/2020.
